SUMMARY

Experienced Web Developer with **4+ years** of hands-on experience in building dynamic, data-driven web applications using **Laravel** and **GIS technologies**. Strong background in developing innovative platforms that enhance efficiency, user experience, and geospatial data visualization. **Recognized with the Tech-Champ Award** for excellence in Web-GIS development.

Technical Skills

Backend: PHP | Laravel | Filament | Laravel InfyOm
Frontend: JavaScript | Leaflet.js | jQuery | HTML | CSS | Bootstrap
Database: MySQL | PostgreSQL | MySQLi
Other Tools: Git | XAMPP | Livewire | SMTP
Project Management: Agile Workflows

Soft Skills: Teamwork | Problem Solving | Communication | Quick Learner | Sincere and Hardworking

EXPERIENCE

ACE Consultant Ltd. (an SMEC Company), Dhaka

Jr. Web Developer

February 2023 – Present

Key Contributions:

- Developed and maintained 5+ Web-GIS applications using Laravel, Leaflet.js, and PostgreSQL.
- Built interactive maps, data visualizations, and GIS tools tailored to project needs.
- Integrated 3D models and satellite/street/hybrid views for enhanced user engagement.
- **Awarded the Tech-Champ Award** for outstanding Web-GIS work (GiMS platform).

Key Projects & Achievements

Web-GIS Platform (GiMS)

- Designing and developing Web-GIS applications using Laravel framework, javascript, leaflet js, jquery, html, css, bootstrap, PgSQL
- Performed GIS data management by recommending enhancements to system Architecture.
- Utilized and configured GIS data conversion, data manipulation for clients which helped them to view and understand how data performed at various geographical levels.
- Implemented 3D and animated models across multiple projects in GIMS to enhance data visualization, spatial analysis, and user engagement. Integrated models with various

map views (Street, Satellite, Hybrid) to support immersive exploration and improve team collaboration and decision-making.

Employee Activity Tracker

- Redeveloped Employee Activity Tracker using Laravel framework, javascript, jquery, html, css, bootstrap, PgSQL.
- Using this web-application user can add their daily work activities with different categories and subcategories.
- Admin can create different roles like PM, PC, TC and assign user to access manage data.
- PM, PC, TC can make monthly reports of all users with their activities.

Jr. Software Engineer

SymbexIT-A Sister Concern of Symbex International

January 2021 – February 2023

Key Contributions:

- Design and developed web application using laravel framework, MySQL, Laravel infyom, javascript, jquery, html, css, bootstrap.
- Making API for Mobile Application.

Key Projects

Single vendor E-commerce website

- **Tools and Technologies:** Laravel framework, livewire, MySQL, javascript, jquery, css, html, bootstrap, payment gateway sslcommerz
- URL- <https://www.ecommerce.symbexit.com/>

Online Bus Ticket Reservation System

- **Tools and Technologies:** Laravel framework, html, css, bootstrap(4.3.1), Js, to send email using SMTP server, to manage database using My apache server, Xampp(7.3.10.0.VC15), Mysqli, using Sublime Text 3 and localhost server
- URL- <https://btrs.ticket.symbexit.com/>

Symbexbd(A dynamic website for Symbex International)

- **Tools and Technologies:** Laravel framework, mysql, javascript, jquery, css and html, **Details:** Symbexbd.com is an official website of Symbex International which introduces all their products to the customer and help to contact easily.
- URL-<https://symbexbd.com>
